

ApeX: Community Constitution & Operating Manual

Version: 2.0

Status: ACTIVE

1. WHO WE ARE

ApeX is not just a WhatsApp group; it is a collective of individuals tired of the status quo. We are here to escape our current predicaments by hunting down the most lucrative opportunities in the financial system—legit memecoins, insider market information, and money-making plays that actually work.

Our mascot—a young lion engulfed in flames—represents exactly who we are: hungry, fierce, growing into our power, and burning with the relentless desire to change our lives. We believe that the system is rigged, but if we hunt together as a tight-knit pride, we will reach the apex of wealth.

Our Motto: Quality over Quantity. Results over Excuses.

2. CORE VALUES

The Colors: Green and Yellow

Green represents the profit we secure. Yellow represents the fire of the young lion driving us forward. We do not care where you are from, how old you are, or what language you speak at home. We have zero tolerance for racism, tribalism, or discrimination.

- We are a global pride.
- We communicate in English or Pidgin.
- The only thing that matters is: **Can you bring value to the table?**

Collective Wealth

If one eats, we all eat. We do not hoard information. We share, we vet, and we execute together.

Zero Tolerance for Laziness

This is not a charity. If you want to change your life, you have to be active. Passive observers (lurkers) are removed.

3. GROUP STRUCTURE

We operate using two distinct channels to keep things organized.

Group A: GreenLight (The Signal Channel)

- **Purpose:** Verified signals and confirmed opportunities only.
- **Action:** When a notification pops up here, it is time to move.
- **Rules:** No chatting. No spam. Strictly business.

Group B: Base (The War Room)

- **Purpose:** Discussion, Analysis, and Vetting.
- **Action:** This is where members post new ideas to be checked by the team. We argue, we analyze, and we decide if an idea is good enough for *GreenLight*.

4. THE MONEY RULES (The Finder's Tax)

This is the engine that keeps ApeX running.

The Rule:

If a member brings an opportunity/signal, they have the **exclusive right** to choose whether to charge a tax or share it for free.

- **Tax Applied:** By default, you must pay a **Finder's Tax** of

10%

(or agreed percentage) of your *net profit* to that member.

- **Tax Waived (Opt-Out):** The finder can explicitly state "No Tax" when posting. In this case, you keep 100% of your profits.
- **Default Status:** If the finder *does not* specify, the tax is assumed to be **MANDATORY**.

The "Rogue Play" Clause:

Sometimes, the group might analyze a signal and decide it is "Too Risky" or "Not Approved" for the official GreenLight channel.

- If you decide to take that risk on your own anyway, and you **LOSE** money, that is on you.
- However, if you decide to take the risk and you **WIN** (make profit), **you still owe the Finder's Tax** (unless it was explicitly waived by the finder).
 - *Why?* Because without that member bringing the idea, you would not have seen it at all. We honor the source.

Failure to Pay:

Anyone caught making money from the group's info without paying the Finder's Tax (when applicable) will be banned immediately and permanently.

5. MODE OF OPERATION

The Daily Grind (Monday - Friday)

- **Scout:** Every member is expected to look for opportunities online (X/Twitter, Telegram, Niche Forums).
- **Share:** Post your findings in **Base** using the Submission Format.
- **Vet:** The group analyzes the play. Is the liquidity locked? Is the developer safe?
- **Execute:** If approved, it moves to **GreenLight**.

The Weekly Sync (Saturday)

- **The Space:** We hold a voice call/space once a week.
- **Agenda:** Review the week's wins/losses and plan for the next week.

The Monthly Audit (End of Month)

- **PnL Review:** We look at how much we made collectively.
- **The Purge:** We review member activity.
 - Did you contribute?
 - Were you active?
 - If the answer is "No," you are removed to make space for someone hungry.

6. SUBMISSION PROTOCOL

Do not just drop a link. You must use this format when introducing an idea in **Base**:

NEW OPPORTUNITY

- **Name/Ticker:** (e.g., \$COIN)
- **The Catalyst:** (Why is this going to pump?)
- **Risk Level:** (1-10)
- **Verification:** (Liquidity check, Dev check, etc.)
- **Finder's Tax:** (Yes / No)
- **My Analysis:** (Your personal thoughts)

7. FINAL WARNING

We are building a table of Billionaires. If you cannot follow simple rules, you do not belong at this table.

Welcome to ApeX.
